

Action Plan

Strategy Number: 6
 Plan Number: 4
 Date: January 6, 2011

Strategy: We will integrate technology, including student mobile wireless computing devices, into every aspect of the student academic experience to support the GCISD mission and strategic objectives.

Specific Result: GCISD will provide and allow for multiple avenues for students to choose learning opportunities, communicate globally and ensure every student can access digital learning 24/7.

#	ACTION STEP (Number each one)	Assigned to:	Starting Date:	Due Date:	Completed Date:
1	Students will be surveyed annually to determine technology and access needs.				
2	All campuses will allow students to utilize their cell phones or personal computing devices for digital learning.				
3	If necessary, students will be provided the most practical and up to date personal computing device for use at school and at home.				
4	District infrastructure will be continually evaluated and upgraded by the technology department as needed to provide necessary bandwidth for multiple computing devices to be used simultaneously.				
5	Working with surrounding cities and businesses, the district will provide wireless "hot spots" or kiosks for access to internet 24/7.				
6	When necessary, the district will provide broadband access for students via portable broadband access cards or similar devices.				
7	A centralized internet portal for all available learning opportunities will be made available to all students and staff to access all resources necessary to learn in a digital environment.				
8	Staff will provide global learning opportunities for students such as video conferencing, distance learning and virtual field trips.				
9	A repository of multimedia key lessons will be available online for student access.				
10	On line courses will be offered for enrichment, remediation, and acceleration.
